

Smart-Rail™

An impressive bed assist rail that unlocks and swings open. Provides assistance with getting into and out of bed, in bed positioning, and standing. Fits twin to king size beds.

Features and Benefits

▪ **Easy To Install.**

Simply slide the support frame between box spring and mattress, and secure with the safety strap. Rail is height adjustable.

▪ **Ideal Support.**

Unlike fixed bedrails, the Smart-Rail™ unlocks and swings open to provide improved standing support at bedside. Well placed support can help to reduce the risk of fall related injuries by eliminating the need to reach and twist.

▪ **Independence.**

With secure, reliable support placed exactly where needed, there is less help required by a caregiver. Encourages confidence and independence.

▪ **Invacare® Homecare Beds (sold separately).**

Smart-Rail™ Hospital fits the Invacare® Homecare Beds: 5411, 5410, 5311, 5310, 5307.

▪ **Smart-Rail™ Leg Extenders (sold separately).**

Increases the Smart-Rail™ height from 31.5" / 80cm to 34.5" / 88cm for taller users.
